

Common Dissemination Booster (CDB)

Free service for disseminating project results – apply before 30 November!

Dear Project Coordinator,

The Commission is delighted to announce a new, EU-funded dissemination service that can help your project make an impact on your market, your stakeholders and users.

How does it work?

Regardless of whether your project is still ongoing and already closed, you **get together with other projects** to form a 'CDB project group'.

The Booster then provides you with **free, professional support** for your dissemination activities (*on top of the dedicated dissemination budget you have already received*).

In this way, you can join forces with other like-minded European and national projects, disseminate together and truly maximise the impact of your results on the market..

5 services

The Booster offers **5 dedicated services** – covering all the essential stages of dissemination.

You can **apply for any or all** of the services – and have them performed anytime until **June 2019**.

Service 1	Portfolio identification	<i>Define your portfolio of results and attributes in common across the cluster.</i>
Service 2	Stakeholder/end-user mapping	<i>Identify and prioritise your stakeholders and build the networks you need to reach them.</i>
Service 3	Portfolio dissemination plan development	<i>Plan how to use dissemination tools to reach the right audience in the right way at the right time.</i>
Service 4	Portfolio dissemination capacity building	<i>Learn the skills you need to improve your dissemination.</i>
Service 5	Dissemination campaign in practice	<i>Hands-on support for delivering your dissemination campaigns.</i>

When should you apply?

At the latest by **30th November 2017** – but the earlier, the better, as the services run on a first-come, first-served basis.

Already identified your own CDB project group? [Apply here](#)
